

**L1/L5 dual-band GNSS technology**  
for effective multipath mitigation  
to boost urban accuracy

**Protection-level technology**  
for a real-time position accuracy  
estimate with 95% confidence

**Highly integrated**  
solutions optimized  
for size-constrained devices

**Dedicated variants**  
for vehicle navigation and  
precision timing

**Advanced**  
jamming and  
spoofing detection

u-blox F10 Platform
